Possible risk of chiropractic treatment

_____ You have the right, as a patient, to be informed about your condition and the recommended integrative and complementary procedure to be used so that you can make an informed decision about whether or not to undergo the procedure after knowing the risks and hazards involved. This disclosure is not meant to scare or alarm you, it is simply an effort to make you better informed so you may give or withhold your consent to the procedure. As with any health procedure, complications may arise during treatment. These complications include but are not limited to soreness, muscle or ligament strain, dislocations, fractures, disc injuries or physiotherapy burns. These are rare occurrences. Doctors of chiropractic, medical doctors, and physical therapists using manual therapy treatment for patients with headaches and cervical spine complaints are required to explain that there may be rare cases of injury to the vertebral artery as a result of treatment. Such an injury has been known to cause a stroke, sometimes with serious neurological damage. Appropriate tests will be performed to help identify if you may be susceptible to this type of injury; you will be notified if that is the case. If you have questions about this, please speak with your practitioner. It is your responsibility to communicate to the Doctor any condition that otherwise would not come to the Doctor's attention.

CONSENT FOR USE OR DISCLOSURE OF HEALTH INFORMATION

Our Privacy Pledge

We are very concerned with protecting your privacy. While the law requires us to give you this disclosure, please understand that we have, and always will, respect the privacy of your health information.

There are several circumstances in which we may have to use or disclose your healthcare information.

- We may have to disclose your health information to another healthcare provider or a hospital if it is necessary to refer you to them for the diagnosis, assessment, or treatment of your health condition.
- We may have to disclose your health information and billing records to another party if they are potentially responsible for the payment of your services.
- We may need to use your health information within our practice for quality control or other operational purposes.

We have a more complete notice that provides a detailed description of how your health information may be used or disclosed. You have the right to review that notice before you sign this consent form (164.520). We reserve the right to change our privacy practices as described in that notice. If we make a change to our privacy practices, we will notify you in writing when you come in for treatment or by mail. Please feel free to call us at any time for a copy of our privacy notices.

Your right to limit uses or disclosures

You have the right to request that we do not disclose your health information to specific individuals, companies, or organizations. If you would like to place any restrictions on the use or disclosure of your health information, please let us know in writing. We are not required to agree to your restrictions. However, if we agree with your restrictions, the restriction is binding on us.

Your right to revoke your authorization

You may revoke your consent to us at any time; however, your revocation must be in writing. We will not be able to honor your revocation request if we have already released your health information before we receive your request to revoke your authorization. If you were required to give your authorization as a condition of obtaining insurance, the insurance company may have a right to your health information if they decide to contest any of your claims.

I have read your consent policy and agree to its terms. I am also acknowledging that I have the right to receive a copy of this notice.
